Summary

Motivated and skilled programmer with **1+ year of experience** in **JavaScript, PHP, CodeIgniter 4 (CI4), and React**. Successfully completed numerous projects, leveraging strong problem-solving abilities and in-depth knowledge of full-stack development to deliver efficient, scalable solutions. Passionate about continuous learning and applying best practices in web development.

Work Experience

Full-Stack Web Developer, Digital Brains, Vazgen Sargsyan

January 2024 - Present

Worked on numerous projects in my company, gaining hands-on experience in full-stack web development. I am a friendly and approachable team player with strong communication skills, making collaboration easy and effective. Passionate about learning new things, I constantly expand my skill set and am dedicated to overcoming challenges, always finding solutions to make everything possible.
